

Getting results with LexisNexis Quickcard

Searching

The screenshot shows the LexisNexis search interface. At the top, there are navigation tabs: **Search** (highlighted with a red box and '1'), **Sources**, **News**, **Power Search**, **Countries**, **Industry Reports**, **Company Profiles**, and **All Search Forms**. Below the tabs, there are instructions on how to search and several input fields:

- 2** Search terms: A text input field containing "paywall" and a dropdown menu set to "Anywhere".
- 3** Within these topics: A dropdown menu set to "Publishing" with an "Add another" button.
- 4** Sources: A dropdown menu set to "*UK Publications".
- 5** Duplicate Options: A dropdown menu set to "On - Moderate similarity".
- 6** Specify date: A dropdown menu set to "Previous 6 months" and a date range "16 Jun 2013 To 16 Dec 2013".

At the bottom of the search form is a red **Search** button (highlighted with a red box and '7').

1. Select the appropriate **search form** for your request.
2. Type in your **search term(s)**.
3. Enter a desired **topic** you wish to include in your search results. An automated list of related/suggested topics may display.
4. Select a **source** from the drop-down list or access the **Source Directory**.
5. The **Duplicate analysis** groups similar documents together.
6. You may narrow your search to documents published on a **specific day** or within the **date range** you specify.
7. Click **SEARCH**.

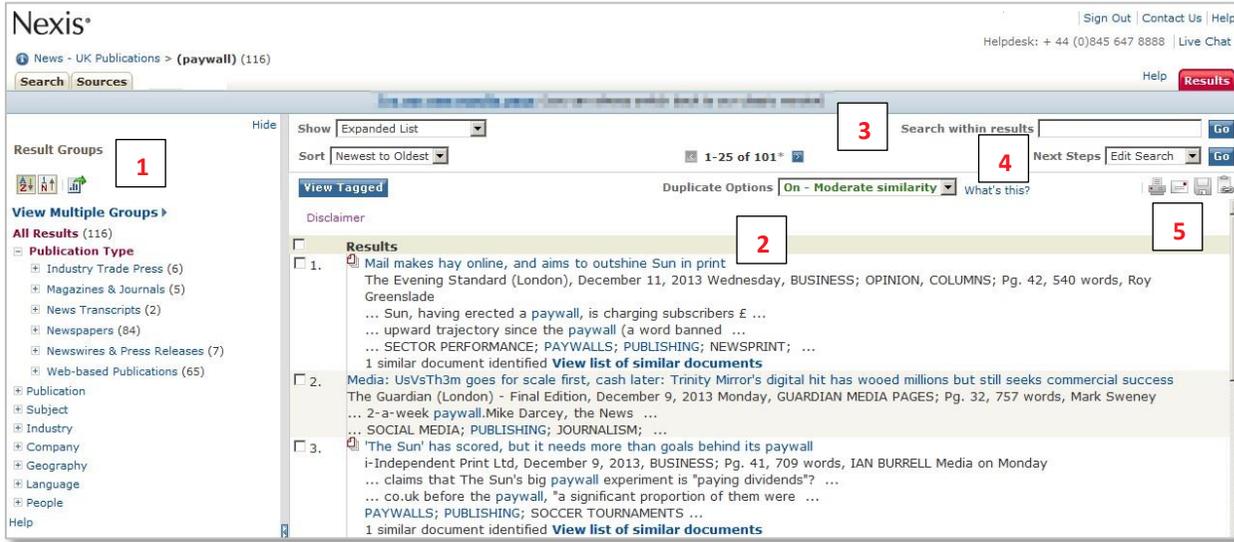

TIP: Click the tab **All Search Forms** to select more search forms.

Working with Results

The screenshot shows the LexisNexis search results interface. On the left, there is a 'Result Groups' sidebar (1) with a 'View Multiple Groups' link. The main area displays a list of search results (2). Above the results, there is a search bar for 'Search within results' (3) and a 'Next Steps' button (4). Below the results, there are icons for 'print, email or download' (5).

1. Use the **Result Groups** to display a specific group of documents within your results.
2. Click the headline of a document to **view the full text**.
3. Use the „**Search within results**“ feature to search for a more specific topic within your original search results.
4. To edit a search or begin a new search, use „**Next Steps**“.
5. Click the checkbox next to the document name and use one of the icons to **print, email or download** your results.

Using Document Sections

Commonly used document sections in the news:

headline (safety and road traffic)

To search within the headline of a news article.

hlead (low fare or low cost carrier or no frill)

To search within the headline and lead paragraph of an article.

byline (aust)

To search for articles written by a specific author.

length>500

To search for articles with a certain number of words.

section (book reviews)

To search within a specific section. Note: the sections differ according to the publication.

publication (new york times)

To search within one or more individual publications.

Commonly used document sections in the company databases:

company (lexisnexis)

To search for a company profile.

country (germany)

To search for companies located in a specific country.

city (frankfurt)

To search for companies located in specific cities.

zip (45! or 46!)

To search for companies in zip code areas.

revenues>10000000

To search with revenues.

employees>20

To search with the number of employees.

Finding companies by industry codes:

Note: The type of industry code depends on the selected database. Use the source information to look up the used industry classification. Most used industry codes are SIC (Standard Industrial Classification, 4 digits) and NACE (Classification of Economic Activities in the European Community, 5 digits).

sic (2111)

Used by Hoover's, Bisnode/Hoppenstedt, The Major Companies Database

nace (70220)

Used by Creditreform, Bürgel, Hoppenstedt
