

“KFH-DC Development and cooperation”

Round Table FHNW

Friday 28th February | 12:15 – 13:15

at HSW Basel

Thursday 13th March | 18:00

at HSW Basel

In the last few years, the FHNW has made good progress in different areas of development and cooperation. Our projects have allowed us to share our expertise, contribute to changes and learn from our partners all over the world. The international partnerships which have resulted from the projects now form a core part of the activities of FHNW in the area of internationalization.

In order to continue on our course toward further valuable contributions and to enhance the positioning of FHNW in the area of internationalization, we now need to optimize synergies and identify FHNW common interests and goals.

The **"Round Table FHNW Cooperation and Development"** aims to bring together people within the FHNW and help them to launch new projects. All employees (in any function) from all the schools of FHNW are welcome to join - not only experienced researchers but also newcomers who might be interested in starting out in this exciting area!

Programme:

- Welcome and brief introduction
- Input: Main "ingredients" for successful future projects
- Pooling our intentions, goals, contacts, competences, funding strategies
- Outlook: Can we identify a common denominator? next steps
- Open end with a small apéro and the opportunity to network

Place: HSW Basel, Peter Merian-Strasse 86

Mailing-list: Please send your contact data to urs.groehbiel@fhnw.ch, also if you are not able to make it to the round table but would like to receive news of the activities at FHNW in the area of development and cooperation.
