This section collects information about your proposed plan of study in the U.S.

1. Select the degree objective to which you are applying.
   - **Master’s**: Choose if you are planning to earn a master’s degree in the U.S.
     Master’s degree candidates must have completed a Bachelors degree or Masters degree (or the equivalent of) to apply. Although the minimum time required for a Master’s degree is one academic year, a student should expect to spend from at least one summer session to an additional academic year to complete the academic requirements.
   - **Doctorate**: Choose if you are planning to do a full PhD in the U.S.
     If you plan to do four to ten months of your PhD research in the U.S. and to complete the PhD in Switzerland, choose “Visiting Student Researcher”.
     Ph.D. degree candidates must have at least two to three academic years beyond the Master’s degree and have published work in addition to the Master’s thesis. However, many doctoral students find four or five years necessary, and in some cases even longer. It is important to make sure that the previous studies in Switzerland will fit the Ph.D. program of the preferred university. Admission at the Ph.D. level is highly competitive.
   - **Non-Degree**: Choose if you are planning to concentrate on full-time coursework in the U.S. for one semester or a full academic year during your current or prospective Master studies in Switzerland (or any other country outside the U.S.).
   - **Visiting Student Researcher**: Choose if you are planning to conduct graduate research. Visiting Student Researchers must be currently enrolled in a Ph.D. program and must have already developed a Ph.D. dissertation topic. No Visiting Student Researcher should be on schedule to complete their Ph.D. studies before arriving in the U.S., or while in the U.S. The primary objective is 4 to 10 months of research with a limitation of one or two courses. Candidates should be presenting proposals that can be completed within their
original grant period (that is, no more than one academic year). If an applicant presents a longer research proposal, their goals are not aligned with the parameters for Visiting Student Researchers in the Fulbright Program. Visiting Student Researchers should not expect to be able to extend their research. Under worldwide Fulbright policy, extension of sponsorship for Visiting Student Researchers is only possible if circumstances beyond the grantee’s control have prevented scheduled research completion. Further, Visiting Student Researchers are not eligible to apply for on-campus work authorization.

2. Select the most appropriate major academic discipline and primary specialization from the dropdown menus.
3. Enter a brief description of the field in which you plan to specialize in the United States in the text box.
4. Enter a brief description of your future plans in the text box.

Creative/Performing Arts Applicants: Supplementary material must be included with the application to demonstrate excellence and achievement in your chosen field. Please check Appendix 1 for instructions on what to provide.

Recommendations

Use this section to register your recommenders. You **must** have three letters of recommendation submitted on your behalf. Your recommenders must complete the forms online and submit electronically. Recommendations must be written in or translated into English.

Once you register your recommenders, they will receive an automatic email with instructions on completing the online recommendation form. It is strongly recommended that after registering you contact your recommenders to make sure they have received the instruction email. In some rare cases the receiving computer system’s firewall may block the notification email.

If you register your recommenders first, they have time to submit their letter of recommendation to your application while you are working on it. You can track the status of recommendations, send reminders, and add/delete recommenders through this system before and after submission of your application. Late referee reports cannot be accepted.

If you are selected for a grant, your letters of recommendation will be sent to several universities; therefore your recommenders should not mention any specific universities that you might want to attend. It is often helpful to obtain recommendations from professors or university teachers who have studied in the U.S. or who are acquainted with faculty members in the U.S.

**Note:** *It is your responsibility to ensure that recommendation reports are submitted by the deadline. Your application will be considered incomplete if the three letters of recommendation have not been received.*

Letters of recommendation are an extremely important aspect of your application. Tips on recommendations:

- Please provide your recommenders with a copy of your project statement.
- Recommendations should be from people qualified to evaluate your professional work; the abilities you bring to the proposed project; your ability to adapt to another country and culture; and the merits of the project itself.
- At least one academic and one professional or work related letter should be included among the letters.
- If you have recently moved to a new home institution, one should be from your previous institution.
- Do not ask someone for a letter of recommendation unless the person is well acquainted with your qualifications. A pro forma letter from a well-known scholar, a contact abroad or a prominent government official will carry less weight than a realistic assessment of your abilities from someone who knows you and your work well.
1. Click *Add Recommender*.
2. Complete all fields in the pop-up form:

3. Click *Send to Recommender* to generate automatic email to recommender.
4. Click *Continue* to save your responses and advance to the next section.
5. Once sent, you will have the option to Edit Recommender information if they have not yet started progress on their response and Save, Send Reminders, and Exclude if you wish to remove the recommender and replace with another individual.

Review

The application will review the responses entered and will display any incomplete questions and required attachments that are missing.

- Before you can submit your application electronically, your application will be reviewed for completeness. If there is missing data, you will be prompted to correct it. However, the system will not evaluate your additional documents e.g. the Transcript Release Form, etc. – please read the Application Checklist (Appendix 4) thoroughly to ensure all documents are attached before submitting.

- Review and print your application for your records.

- Please note that you must submit all required supporting documents electronically by the application deadline. No material will be accepted after this date.

Fulbright Foreign Student Program

Academic Materials

Paper copies of official academic transcripts and copies of diplomas/degrees accompanied by official English translations (when necessary, translated by the issuing university or official translator) must be sent to swissuniversities by the application deadline of August 5, 2020.

Important: Official transcripts should be submitted directly from the schools in sealed envelopes to swissuniversities:

swissuniversities
Scholarship Service
Effingerstrasse 15 / P.O. Box
3001 Bern

a) Official academic transcripts: Transcripts issued directly by the university will be considered official. Paper copies of transcripts will only be accepted with an official stamp and signature from the university. Copies of transcripts certified or notarized by a third party (i.e. public notary) will NOT be accepted as official. Translations must be literal – not interpretive. You need to attach one transcript from each university or post-secondary institution you attended, even those schools from which you did not receive a degree or diploma (e.g. Erasmus or other student exchange programs). The transcripts should list the subjects you studied and the grades you received during each year of your enrollment. If your transcripts include courses where only fair or pass grades are given, you must ask the university to verify this on your documents so they are clearly identified.

Special note for Visiting Student Researchers: Candidates who are planning to pursue Visiting Student Researcher affiliations at a U.S institution are requested to include documentation from their home university confirming that the candidate is presently enrolled in a Ph.D. program.

b) Diploma: A copy of your university or post-secondary diploma for each university or post-secondary degree awarded to you with official English translation (if necessary)

c) Diploma Supplement: A copy of the Diploma Supplement(s)
Scanned copies of your academic records must be uploaded to the online application. Combine the above documents (a-c) in a multi-page PDF and upload the PDF to the corresponding institution from the list in the Academic materials section.

Standardized Test Scores (TOEFL, GRE, GMAT)

It is a standard admission requirement of U.S. institutions for international applicants to provide a TOEFL score. Schools will not accept applicants officially without the TOEFL score. You might also be required to take one of the following standardized tests to obtain admission to a U.S. university: GRE revised General Test, GRE Subject Test or GMAT. For further information on standardized tests please visit http://www.ets.org and http://www.mba.com.

Institution codes

An institution code list is available during online registration. Candidates must select their score recipients (designated institutions to receive their scores) during registration. They cannot select their score recipients at the test center.

To avoid any delays during the submission and placement process, due to missing score reports, Fulbright candidates must designate the Institute of International Education’s (IIE) institution code when taking the exams. Most universities will not review the candidates’ applications for admission until they are in receipt of the official copies of the score reports. Therefore, please designate the following institution code when taking the exam:

- For all TOEFL and GRE exams: code 2326
- For the GMAT: code FOF 4J 28

Test scores availability

If you have already taken a TOEFL, GRE or GMAT, please indicate the date of the examination and your results in the Test Scores section in the online application and also save a copy of the test taker score report to the Score Reports section. If official scores are not available by the time the application is submitted please include unofficial scores when available. Alternatively, please list future date(s) for taking the exam(s).

You will have to take the TOEFL and depending on your field of study, either the GRE and GRE Subject Test (required for the following fields: Biochemistry, Cell and Molecular Biology, Biology, Chemistry, Computer Science, Literature in English, Mathematics, Physics and Psychology) or the GMAT (MBA and business-related programs). GRE Subject Tests are administered in October and November of each year. Candidates in MBA and business-related programs should plan to sit for the GMAT exam in October 2020.

These exams are NOT required for the Fulbright application. However, we recommend taking exams no later than September in order for score reports to be received by IIE’s October 1st application deadline. Early testing is important for several reasons. Candidates often need to take exams more than once in order to become familiar with the exam and get an optimal score. Furthermore, having test scores available at the time the applications of the selected candidates are submitted to IIE assists IIE’s University Placement Services Division with selecting appropriate universities for the candidates.

Fee Vouchers

Annually, IIE sends TOEFL, GRE and GMAT fee vouchers to swissuniversities to be used by selected candidates as payment for these tests. Since the vouchers can only be used at the time when registering for the test, please make sure that you contact swissuniversities for a voucher BEFORE YOU REGISTER for the test.

Please note carefully: As vouchers can only be provided after the selection meeting at the beginning of September 2020 to candidates who have been selected for the Fulbright Program, it is up to you to decide whether you would register for the exam(s) as early as possible to secure a place at your preferred test date or whether you would wait until the selection meeting to register for the test(s) to benefit from a voucher should you be selected for a Fulbright grant.
Portfolio Materials

Arts Applicants (Film, Music, Theater, Dance, Visual Arts & Design, Arts Administration, Art Education, Arts Therapy)

Programs in the Arts are extremely competitive and have rigorous and detailed application requirements, as well as very early application deadlines. Arts applicants will need to think about their application process in two parts:

**Part One:** We will need to send the Institute of International Education IIE a sample of your work with your Fulbright application. This sample will not be sent to any schools. This is just for IIE to understand your work.

This sample of your work will also be used for the Fulbright selection meeting in September and forwarded to the members of the Fulbright Selection Committee. It should be a selection of your strongest work that illustrates diversity and strength. It doesn’t need to be large or extensive, but enough for the members of the selection committee and IIE to understand what kind of work you create. For example, if you are a sculpture artist, you can submit 5-10 images of your work; if you are a filmmaker, you can submit a video; if you are a designer, you can provide a web link of your work.

Please upload your portfolio materials in the Portfolio section.

**Part Two:** You should be visiting the websites of the schools that you are interested in applying. These websites will set the guidelines for the applications and will give students an idea of what is required.

Some schools have not updated the guidelines for the 2021-2022 application yet, but the changes will likely be minimal from last year, so you should read the guidelines for the 2020-2021 application period. (Please note: if you create a portfolio based on the previous year’s guidelines and the school makes an adjustment for the 2021-2022 guidelines, you will be required to make these changes.)

The best thing for you to do is visit the websites of the schools you are interested in and read the guidelines thoroughly. Then you can start to compile the kinds of materials that will be required. You will also be able to see if there is any overlap in requirements from school to school. If you start compiling materials now it will be easier for you to submit your portfolios in case you will be selected as a Fulbright grantee.

Architecture Applicants (All Architecture fields including Landscape Architecture, Environmental Architecture, Urban Design (not Urban Planning), Architectural History, etc.)

In most cases, Architecture applicants will not be required to customize their Study Objective. Architecture applicants in more research-based MS Architecture fields will need an architecture portfolio; writing samples are only required by some schools. You should be visiting the websites of the schools that you are interested in applying. These websites will set the guidelines for the applications and will give you an idea of what is required.

We will need to send the Institute of International Education IIE a sample of your work with your Fulbright application. This sample will also be used for the Fulbright selection meeting in September and forwarded to the members of the Fulbright Selection Committee. IIE submits your work sample to the schools on your behalf in case you will be selected as a Fulbright grantee.

Architecture portfolio requirements

The portfolio must consist of 3 hardcopy portfolios + 1 PDF portfolio:

- 3 identical hardcopy portfolios
  - Must be bound
  - Should be 8.5” x 11”
  - DO NOT include an institution’s name on the cover
  - DO include a resume as page 1 of the portfolio
Scholarship Service

- 1 electronic version, identical to the hardcopy:
  - Must be in PDF format
  - Cannot exceed 10 MB
  - Must include some recent work

Please upload the electronic version of your portfolio in the Portfolio section. The hardcopy portfolios must be sent to swissuniversities in September after the selection meeting should you be selected as a Fulbright grantee.

Fulbright Foreign Student Application
Study Objective and Personal Statement Guidelines

Essay Guidelines

Study Objective:
The study/research objective description that you provide is a highly important part of your application. It helps the reader better understand your proposed study goals. You should take great care to write a clear and very detailed description of the program you want to pursue.

- Be specific about your degree objective, major field and specialized interests within this field.
- Explain why you are interested in this area.
- Describe the kind of program you expect to undertake
  - How does this fit into your educational background?
  - How does this fit into your future objectives and goals?
- How are your research interests relevant to current trends/challenges in your home country?
- How will you apply your studies upon returning to your home country?
- References to proposed universities or faculty should not be made.
- The essay should be at least one page and no longer than two pages.
- Please use your own words. If you are planning to use someone else’s works or research you must credit the source at all times.

Personal Statement:
The personal statement is a narrative statement in which you give the reader more insight into you as an individual and your future contributions. It should include information about your education, practical experience, special interests, career plans, and your purpose in applying for study.

- Explain who you are, what is important to you and what you intend to accomplish in your life.
  - Discuss experiences, people, and events that inspired you to pursue this field of study.
  - Demonstrate your commitment to your field of study:
    - What kind of contribution do you want to make?
    - What do you intend to do with your degree?
- The essay should be at least one page and no longer than two pages.
- Please use your own words. If you are planning to use someone else’s works or research you must credit the source at all times.

Plagiarism

What is Plagiarism?
Plagiarism is using someone else’s words, ideas, or research as your own without crediting the source.

How to Avoid Plagiarism

- Cite – Citations should be included whenever referencing another individual’s work, whether paraphrasing or quoting.
  - Citations usually include the author(s) and the date of the publication or similar information.
• Quote citations usually include the author(s) and the page number, or paragraph number in the case of web content.

• A reference page or page of works cited at the end of your essay should include the author(s), date of publication, title, and source.

To cite correctly, follow a commonly used document formatting guide, such as APA, MLA or Chicago. Not citing properly can lead to an allegation of plagiarism.

• **Paraphrase** - Read the source text you would like to reference in your essay and put it into your own words, making sure not to copy the work verbatim. If you use text as written in the original, you must use quotation marks. Citations for paraphrased work must be included.

• **Quoting** - If quoting a source, use the quote exactly as it appears in the original work. It is important to note that most higher education institutions discourage “block quotes” or quotes of 40 words or more. Quoting should be done whenever using someone else’s text as written and must be cited to avoid plagiarism allegations.

**What is Common Knowledge?**

You do not need to cite a source for material considered common knowledge. Note that common knowledge can change depending on your culture and geographic location. If you are ever in doubt, always cite the source.

**General common knowledge** is factual information that most people know or can easily find in a number of sources. This can include birth and death dates of well-known figures, and generally accepted dates of political, literary, and other historical events.

**Field-specific common knowledge** is “common” only within a particular field or specialty. It may include facts, theories, or methods that are familiar to readers within that discipline.

Key Elements of a Competitive Application

Application:

- Take care to answer all questions to the best of your ability.
- Make sure that you spell your name correctly and in English; do not use diacritical markings, if you only have one name, use the last name field.
- Make sure that the information you have added into the online application text boxes displays completely.
- When prompted:
  - List all post-secondary schools attended, including study abroad programs, and list in order of those most recently attended.
  - List all academic, professional, and personal awards and honors achieved.
  - Write a clearly articulated study objective or academic goal statement. This is an important component of your application and is your opportunity to state what you want to study and to achieve. Be specific.
  - Write a personal statement which clearly details who you are and your experiences. You can both highlight your strengths and address any inconsistencies or perceived weaknesses.
  - Review the plagiarism agreement and acknowledge that you understand and will comply with the agreement.
  - Upload your resume or a CV (Curriculum vitae).
  - Upload copies of your student transcripts (Please note, official transcripts prepared by the schools you attended will still be needed and must be sent by postal mail to your Fulbright Office).
  - For programs that utilize IIE placement services, indicate up to 8 university programs in order of preference and share any other pertinent information that someone handling your placement should know, if you are selected.

Letters of Reference:

- IMPORTANT! Letters of References should ideally be from people who know you well in a professional capacity.
- IIE recommends focusing on work contacts OR on academic contacts. Depending on what is weighed more significantly by the admissions committee—your work experience or your academic background. This will vary by your field of study.
- Referees should be able to speak to your strengths.
- Referees should be chosen so that they say different things about you.
- Note, in some educational systems the reputation of the referee is important. However, in the U.S. this is not a consideration if the referee does not know you well.
- We recommend that your referees complete the online reference letter. You need to register them as part of the online application process.

Academic Transcripts and Translations (sometimes referred to a mark sheets or degree statements):

- Transcripts must list all courses and/or subjects taken and the grades received. Ideally they should indicate when the course was taken. Most transcripts contain a ‘legend’ which will explain what an ‘excellent’ grade, a ‘passing’ grade, etc. is. (Please note a description of the course is NOT required).
- You must submit official transcripts. In other words, they must be certified by the school, e.g. the Registrar’s Office or Controller of Examinations (Official transcripts may NOT be certified by a professor or other legal authority) and be forwarded in an envelope that has not been opened by you, the student.
- Transcripts should be in the official language of the country unless the school provides an official transcript in English.
- If a translation is necessary, it can be issued by the school or by a qualified translator. Translations must be literal—not interpretive.
- Note, for those individuals studying in Europe and completing a Bologna-compliant degree, a diploma supplement in English is also needed.

Test Scores

- IIE requires official test scores to be sent from the testing institution. An ‘examinee’ copy may be used while awaiting “official” scores, but eventually universities will need “official” test scores.
- When taking the test, please make sure to indicate IIE as a test recipient.
- For TOEFL and all GRE exams, the code is 2326.
- For GMAT exams, the code is FOF-4J-28
- For IELTS, select Institute of International Education from the ‘Professional Bodies’ listing.
- Note: TOEFL and IELTS scores are valid for two years. GRE and GMAT scores are valid for five years.
