**Study Plan**

This section collects information about your proposed plan of study in the U.S.

1. Select the degree objective to which you are applying.
   - **Master’s**: Choose if you are planning to earn a Master’s degree in the U.S.
     Master’s degree candidates must have completed a Bachelor’s degree or Master’s degree (or the equivalent of) to apply. Although the minimum time required for a Master’s degree is one academic year, a student should expect to spend from at least one summer session to an additional academic year to complete the academic requirements.
   - **Doctorate**: Choose if you are planning to do a full PhD in the U.S.
     If you plan to do four to ten months of your PhD research in the U.S. and to complete the PhD in Switzerland, choose “Visiting Student Researcher”.
     Ph.D. degree candidates must have at least two to three academic years beyond the Master’s degree and have published work in addition to the Master’s thesis. However, many doctoral students find four or five years necessary, and in some cases even longer. It is important to make sure that the previous studies in Switzerland will fit the PhD program of the preferred university. Admission at the PhD level is highly competitive.
   - **Non-Degree**: Choose if you are planning to concentrate on full-time coursework in the U.S. for one semester or a full academic year during your current or prospective Master studies in Switzerland (or any other country outside the U.S.).
   - **Visiting Student Researcher**: Choose if you are planning to conduct graduate research. Visiting Student Researchers are typically enrolled in a PhD program and have already developed a PhD dissertation topic. No Visiting Student Researcher should be on schedule to complete their PhD studies before arriving in the U.S., or while in the U.S. Graduate students who wish to conduct research during their Master's program or after completing their Master's degree should also apply for a Visiting Student Researcher position.
The primary objective is 4 to 10 months of research with a limitation of one or two courses. Candidates should be presenting proposals that can be completed within their original grant period (that is, no more than one academic year). If an applicant presents a longer research proposal, their goals are not aligned with the parameters for Visiting Student Researchers in the Fulbright Program. Visiting Student Researchers should not expect to be able to extend their research. Under worldwide Fulbright policy, extension of sponsorship for Visiting Student Researchers is only possible if circumstances beyond the grantee’s control have prevented scheduled research completion. Further, Visiting Student Researchers are not eligible for academic training or on-campus work authorization.

2. Select the most appropriate major academic discipline and primary specialization from the drop-down menus.
   a. Some fields, such as Arts and Architecture, will trigger a message that you are required to upload portfolio materials as part of your application. You will be able to upload materials on the next page. Please check Appendix 1 for instructions on what to provide.

3. Enter a brief description of the field in which you plan to specialize in the United States in the text box.

4. Enter a brief description of your future plans in the text box.

**Study/Research Objective**

This statement is an essential part of your application and is required. **Do NOT mention specific U.S. universities at which you would like to study.**

It should not be a mere listing of facts, it should include information about your education, practical experience, special interests, and career plans. Describe any significant factors that have influenced your educational or professional development. Comment on the number of years of practical experience already completed in the field in which academic work will be done in the United States. Do NOT mention specific U.S. universities at which you would like to study. In Appendix 3 you will find some general tips for you to use as a guide.

However, as more and more universities are requiring writing samples as a part of their application process, we encourage ALL applicants to submit a writing sample if they have a strong piece of writing prepared (about 5-20 pages).

   Important: Please note that your writing sample must be in English and written by yourself (not in collaboration with other authors).

Outreach Survey

**Recommendations**

Use this section to register your recommenders. You **must** have **three** letters of recommendation submitted on your behalf. Your recommenders must complete the forms online and submit electronically. Recommendations must be written in or translated into English.

Once you register your recommenders, they will receive an automatic email with instructions on completing the online recommendation form. It is strongly recommended that after registering you contact your recommenders to make sure they have received the instruction email. In some rare cases the receiving computer system's firewall may block the notification email.

If you register your recommenders first, they have time to submit their letter of recommendation to your application while you are working on it. You can track the status of recommendations, send reminders, and add/delete recommenders through this system before and after submission of your application. Late referee reports cannot be accepted.

If you are selected for a grant, your letters of recommendation will be sent to several universities; therefore your recommenders should not mention any specific universities that you might want to attend. It is often helpful to obtain recommendations from professors or university teachers who have studied in the U.S. or who are acquainted with faculty members in the U.S.

**Note:** *It is your responsibility to ensure that recommendation reports are submitted by the deadline. Your application will be considered incomplete if the three letters of recommendation have not been received.*

Letters of recommendation are an extremely important aspect of your application. Tips on recommendations:

- Please provide your recommenders with a copy of your project statement.
- Recommendations should be from people qualified to evaluate your professional work; the abilities you bring to the proposed project; your ability to adapt to another country and culture; and the merits of the project itself.
- At least one academic and one professional or work related letter should be included among the letters.
- If you have recently moved to a new home institution, one should be from your previous institution.
- Do not ask someone for a letter of recommendation unless the person is well acquainted with your qualifications. A pro forma letter from a well-known scholar, a contact abroad or a prominent government official will carry less weight than a realistic assessment of your abilities from someone who knows you and your work well.

**Important:** *Please also have a look at the tips in Appendix 4, page 2 “Letters of Reference” section.*
1. Click **Add Recommender**.
2. Complete all fields in the pop-up form:

3. Click **Send to Recommender** to generate automatic email to recommender.
4. Click **Continue** to save your responses and advance to the next section.
5. Once sent, you will have the option to Edit Recommender information if they have not yet started progress on their response and Save, Send Reminders, and Exclude if you wish to remove the recommender and replace with another individual.

**Review**

The application will review the responses entered and will display any incomplete questions and required attachments that are missing.

- If any errors appear, correct or complete these sections and return to the Review section to determine if your application is ready for submission. However, the system will not evaluate your additional documents, e.g. the Transcript Release Form, etc. – please read the Application Checklist (Appendix 4) thoroughly to ensure all documents are attached before submitting.

- Review and print your application for your records.

- Please note that you must submit all required supporting documents electronically by the application deadline. No material will be accepted after this date.

Fulbright Foreign Student Program

Academic Materials

Electronic copies
Electronic copies of transcripts, English translations of transcripts, and diploma(s)/diploma supplement(s) must be uploaded to the Fulbright online application via Slate. Upload the below documents a-c (see section “Required academic materials”) to the corresponding institution from the list in the Academic materials section.

Hard copy documents
Hard copies of official academic transcripts accompanied by original English translations (when necessary) must be submitted to swissuniversities by the application deadline of August 4, 2023.

IMPORTANT: Official transcripts must be sent in a sealed envelope directly from the higher education institution to swissuniversities to the following address:

swissuniversities
Scholarship Service
Effingerstrasse 15 / P.O. Box 3001 Bern

If the official transcript is not sent directly to swissuniversities then the transcript must be handed to swissuniversities in a sealed envelope. Any transcripts not received in a sealed envelope are NOT considered official.

Required academic materials
a) Official transcripts: An ORIGINAL transcript is a document that is issued only once from the higher education institution upon graduation and course/exam completion. Please do NOT send an original document, as IIE is unable to return any documentation that has been submitted.
In place of an original transcript, please request and collect an attested **OFFICIAL transcript**. An OFFICIAL transcript is a copy of the original transcript issued by the higher education institution, and **certified by the university with a signature and stamp, in the original language in a sealed envelope**. Copies of transcripts certified or notarized by a third party (i.e. public notary) will NOT be accepted as official.

An OFFICIAL transcript must list all subjects taken and grades earned for each year/semester of study. If the transcript includes courses where only fair or pass grades are given, you must ask the university to verify this on your documents so they are clearly identified.

**IMPORTANT**: You must provide an OFFICIAL transcript from each university or post-secondary institution you attended, **even those schools from which you did not receive a degree or diploma (e.g. Erasmus/SEMP or other student exchange programs)**.

Special note for Visiting Student Researchers: PhD candidates who are planning to pursue Visiting Student Researcher affiliations at a U.S institution are requested to include documentation from their home university confirming that the candidate is presently enrolled in a PhD program.

b) **Diploma**: A copy of your university or post-secondary diploma for each university or post-secondary degree awarded to you with original English translation (if the diploma is not issued in English)

c) **Diploma Supplement**: A copy of the Diploma Supplement(s)

**Translations**

You need to submit official transcripts and diploma(s)/diploma supplement(s) in both the original language and in English. If the university does not issue an official copy in English, you will need to provide a translated copy.

Translations of academic documents should be done by someone authorized to issue translations. This can be a notary or an official translator ([www.astli.ch](http://www.astli.ch)).

**Standardized Testing (TOEFL, GRE, GMAT)**

It is a standard admission requirement of U.S. institutions for international applicants to provide a TOEFL score. You might also be required to take one of the following standardized tests to obtain admission to a U.S. university: GRE General Test, GRE Subject Test or GMAT. For further information on standardized tests please visit [http://www.ets.org](http://www.ets.org) and [http://www.mba.com](http://www.mba.com).

**TOEFL**: Schools will not accept applicants officially without the TOEFL score. There is no universal minimum score requirement across programs or institutions. For example: An Integrated Marketing/Communication Program would typically have a higher required minimum score than a Mathematics Program. 80 to 100 is the required TOEFL IBT minimum for many institutions. Programs may also require minimum sub-scores, the most common being 20 to 25 for each TOEFL section.

**GRE**: The GRE is highly recommended for Master’s and Doctoral candidates in most fields to maximize program options and ensure candidates meet requirements for all programs. Candidates in the STEM fields are required to take the GRE exam. GRE is not required for Arts, Law, and Business fields. Most programs do not have a universal minimum score requirement but list the average score range of those who have been admitted in the past. Minimum score requirements, if any, are usually set by individual departments within the institutions. For example: Quantitative scores are weighed more heavily in Engineering programs while verbal scores are expected to be higher in Education programs. Regardless of field of study, candidates should automatically retake the GRE if they are below the fiftieth percentile in any section.

**GRE Subject Test**: If a candidate is studying Chemistry, Physics, Mathematics or Psychology, he or she may need to take the GRE Subject test. Programs requiring the GRE Subject Test will consider an application incomplete if there are no scores available for review. GRE Subject Tests are administered in September and October of each year.
GMAT: The GMAT is required for Master’s and Doctorate candidates in Business. A minimum 550 GMAT score is required for Master’s candidates; a minimum score of 600 is required for Ph.D. candidates. Candidates should sit for the GMAT exam in summer. Many U.S. business schools conduct first-round selections in November or December. If a candidate is requested to retake the exam to meet minimum standards or to be more competitive for particular programs, sufficient time remains to retake and have schools receive scores in time for admission consideration.

GMAT vs. GRE General Test for Business School Admission:
A small but growing number of MBA programs are now accepting the GRE General Test in lieu of the GMAT test. However, taking the GMAT examination will provide candidates with a greater range of institutions that a candidate may apply to, as the GMAT is still the preferred test examination for MBA admission. For Doctoral Business programs, IIE recommends taking both the GRE and the GMAT. It is left up to individual institutions to determine which exam they will accept for admission, and what their GRE and GMAT score requirements are.

Institution codes
Most universities will not review the candidates’ applications for admission until they are in receipt of the official copies of the score reports. An institution code list is available during online registration or on test day and candidates can select their score recipients (designated institutions to receive their scores). To avoid any delays during the submission and placement process, due to missing score reports, Fulbright candidates must designate the Institute of International Education’s (IIE) institution code:

- TOEFL
  Score Recipients: Candidates can provide score recipients during registration.
  IIE Institution Code: 2326

- GRE
  Score Recipients: Candidates should provide the score recipients on test day.
  IIE Institution Code: 2326

- GMAT
  Score Recipients: Candidates should provide the score recipients on test day.
  IIE Institution Code: Institute of International Education

Test scores availability
If you have already taken a test, please indicate the date of the examination and your results in the Test Scores section in the online application and upload a copy of the Test Taker Score Report to the Score Reports section. If official scores are not available by the time the application is submitted please include unofficial scores when available. Alternatively, please note future test date(s) in the application. The test score copy must be sent to swissuniversities when received.

These exams are NOT required for the Fulbright application. However, we recommend taking exams no later than September in order for score reports to be received by IIE in October 2023. Early testing is important for several reasons. Candidates often need to take exams more than once in order to become familiar with the exam and get an optimal score. Furthermore, having test scores available at the time the applications of the selected candidates are submitted to IIE assists IIE’s University Placement Services Division with selecting appropriate universities for the candidates.

Fee Vouchers
Annually, IIE sends TOEFL, GRE and GMAT fee vouchers to swissuniversities to be used by selected candidates as payment for these tests. (Note: IIE does not provide vouchers for IELTS). Since the vouchers can only be used at the time when registering for the test, please make sure that you contact swissuniversities for a voucher BEFORE YOU REGISTER for the test. Please note carefully: As vouchers can only be provided after the selection meeting at the beginning of September 2023 to candidates who have been selected for the Fulbright Program, it is up to you to decide whether you would register for the exam(s) as early as possible to secure a place at your preferred test date or whether you would wait until the selection meeting to register for the test(s) to benefit from a voucher should you be selected for a Fulbright grant.
Portfolio Materials

Arts Applicants (Film, Music, Theater, Dance, Visual Arts & Design, Arts Administration, Art Education, Arts Therapy)

Programs in the Arts are extremely competitive and have rigorous and detailed application requirements, as well as very early application deadlines. Arts applicants will need to think about their application process in two parts:

**Part One:** We will need to send the Institute of International Education (IIE) a sample of your work with your Fulbright application. This sample will not be sent to any schools. This is just for IIE to understand your work.

This sample of your work will also be used for the Fulbright selection meeting in September and forwarded to the members of the Fulbright Selection Committee. It should be a selection of your strongest work that illustrates diversity and strength. It doesn't need to be large or extensive, but enough for the members of the selection committee and IIE to understand what kind of work you create. For example, if you are a sculpture artist, you can submit 5-10 images of your work; if you are a filmmaker, you can submit a video; if you are a designer, you can provide a web link of your work.

Please upload your portfolio materials in the Portfolio section.

**Part Two:** You should be visiting the websites of the schools that you are interested in applying. These websites will set the guidelines for the applications and will give students an idea of what is required.

Some schools have not updated the guidelines for the 2024-2025 application yet, but the changes will likely be minimal from last year, so you should read the guidelines for the 2023-2024 application period. (Please note: if you create a portfolio based on the previous year’s guidelines and the school makes an adjustment for the 2024-2025 guidelines, you will be required to make these changes.)

The best thing for you to do is visit the websites of the schools you are interested in and read the guidelines thoroughly. Then you can start to compile the kinds of materials that will be required. You will also be able to see if there is any overlap in requirements from school to school. If you start compiling materials now it will be easier for you to submit your portfolios in case you will be selected as a Fulbright grantee.

Architecture Applicants (All Architecture fields including Landscape Architecture, Environmental Architecture, Urban Design (not Urban Planning), Architectural History, etc.)

In most cases, Architecture applicants will not need to customize their Study Objective. Writing samples are only required by some schools for PhD, but generally not for the Master’s level.

A portfolio is required for all programs. Most schools require a digital portfolio, while a few programs still require a hard-copy portfolio, so you should be prepared to provide portfolios in both formats. Individual portfolio requirements should be taken very seriously and can greatly affect a student’s chances of being admitted. You will need to supply one portfolio to every school to which you apply. The submitted work should be representative of your development, include complete projects and, if possible, be relevant to the proposed field of study. Your role in collaborative projects should be clearly identified. Some schools may require original drafts of submitted work. Most schools will not return a student’s portfolio.

You should be visiting the websites of the schools that you are interested in applying. These websites will set the guidelines for the applications and will give you a clear idea of what is required.

We will need to send IIE a sample of your work with your Fulbright application. This sample will also be used for the Fulbright selection meeting in September and forwarded to the members of the Fulbright Selection Committee.

Please upload an electronic version of your portfolio in the Portfolio section. A hardcopy portfolio (if required by some schools) can be sent to swissuniversities in September in case you will be selected as a Fulbright grantee.
GENERAL LISTING OF ADMISSION REQUIREMENTS BY FIELD OF STUDY

Please note that the requirements listed below are intended to provide a general sense of the most common requirements for admission and the minimum scores that will make a student competitive at the Master’s level. Doctoral programs generally require higher scores on standardized tests. Actual requirements will vary by institution and by programs within departments as well as by degree.

Essay Guidelines

Study Objective:
The *study/research objective* description that you provide is a highly important part of your application. It helps the reader better understand your proposed study goals. You should take great care to write a clear and very detailed description of the program you want to pursue.

- Be specific about your degree objective, major field and specialized interests within this field.
- Explain why you are interested in this area.
- Describe the kind of program you expect to undertake
  - How does this fit into your educational background?
  - How does this fit into your future objectives and goals?
- How are your research interests relevant to current trends/challenges in your home country?
- How will you apply your studies upon returning to your home country?
- References to proposed universities or faculty should not be made.
- The essay should be at least one page and no longer than two pages.
- Please use your own words. If you are planning to use someone else’s works or research you must credit the source at all times.

Personal Statement:
The *personal statement* is a narrative statement in which you give the reader more insight into you as an individual and your future contributions. It should include information about your education, practical experience, special interests, career plans, and your purpose in applying for study.

- Explain who you are, what is important to you and what you intend to accomplish in your life.
  - Discuss experiences, people, and events that inspired you to pursue this field of study.
  - Demonstrate your commitment to your field of study:
    - What kind of contribution do you want to make?
    - What do you intend to do with your degree?
- The essay should be at least one page and no longer than two pages.
- Please use your own words. If you are planning to use someone else’s works or research you must credit the source at all times

Plagiarism

What is Plagiarism?

Plagiarism is using someone else’s words, ideas, or research as your own without crediting the source.

How to Avoid Plagiarism

- **Cite** – Citations should be included whenever referencing another individual’s work, whether paraphrasing or quoting.
  - Citations usually include the author(s) and the date of the publication or similar information.
• Quote citations usually include the author(s) and the page number, or paragraph number in the case of web content.
• A reference page or page of works cited at the end of your essay should include the author(s), date of publication, title, and source.

To cite correctly, follow a commonly used document formatting guide, such as APA, MLA or Chicago. Not citing properly can lead to an allegation of plagiarism.

• Paraphrase - Read the source text you would like to reference in your essay and put it into your own words, making sure not to copy the work verbatim. If you use text as written in the original, you must use quotation marks. Citations for paraphrased work must be included.

• Quoting - If quoting a source, use the quote exactly as it appears in the original work. It is important to note that most higher education institutions discourage “block quotes” or quotes of 40 words or more. Quoting should be done whenever using someone else’s text as written and must be cited to avoid plagiarism allegations.

What is Common Knowledge?
You do not need to cite a source for material considered common knowledge. Note that common knowledge can change depending on your culture and geographic location. If you are ever in doubt, always cite the source.

General common knowledge is factual information that most people know or can easily find in a number of sources. This can include birth and death dates of well-known figures, and generally accepted dates of political, literary, and other historical events.

Field-specific common knowledge is “common” only within a particular field or specialty. It may include facts, theories, or methods that are familiar to readers within that discipline.

Key Elements of a Competitive Application

Application:

- Take care to answer all questions to the best of your ability.
- Make sure that you spell your name correctly and in English; do not use diacritical markings, if you only have one name, use the last name field.
- Make sure that the information you have added into the online application text boxes displays completely.
- When prompted:
  - List all post-secondary schools attended, including study abroad programs, and list in order of those most recently attended.
  - List all academic, professional, and personal awards and honors achieved.
  - Write a clearly articulated study objective or academic goal statement. This is an important component of your application and is your opportunity to state what you want to study and to achieve. Be specific.
  - Write a personal statement that clearly details who you are and your experiences. You can both highlight your strengths and address any inconsistencies or perceived weaknesses.
  - Review the plagiarism agreement and acknowledge that you understand and will comply with the agreement.
  - Upload your resume or a CV (Curriculum vitae).
  - Upload copies of your student transcripts (Please note, official transcripts prepared by the schools you attended will still be needed and must be sent by postal mail to your Fulbright Office).
  - For programs that utilize IIE placement services, indicate up to 4 university programs in order of preference and share any other pertinent information that someone handling your placement should know if you are selected.

Letters of Reference:

- **IMPORTANT!** Letters of References should ideally be from people who know you well in a professional capacity.
- IIE recommends focusing on work contacts OR on academic contacts. Depending on what is weighed more significantly by the admissions committee—your work experience or your academic background. This will vary by your field of study.
- Referees should be able to speak to your strengths.
- Referees should be chosen so that they say different things about you.
- Note, in some educational systems the reputation of the referee is important. However, in the U.S. this is not a consideration if the referee does not know you well.
- Your referees must complete the online reference letter. Register them as part of the online application process.

Academic Transcripts and Translations (sometimes referred to as mark sheets or degree statements):

- Transcripts must list all courses and/or subjects taken and the grades received. Ideally, they should indicate when the course was taken. Most transcripts contain a ‘legend’ that will explain what an ‘excellent’ grade, a ‘passing’ grade, etc. is. *(Please note a description of the course is NOT required).*
- You must submit official transcripts. In other words, they must be certified by the school, e.g. the Registrar’s Office or Controller of Examinations *(Official transcripts may NOT be certified by a professor or other legal authority)* and be forwarded in an envelope that has not been opened by you, the student.
- Transcripts should be in the official language of the country unless the school provides an official transcript in English.
- If a translation is necessary, it can be issued by the school or by a qualified translator. Translations must be literal—not interpretive.
- Note, for those individuals studying in Europe and completing a Bologna-compliant degree, a diploma supplement in English is also needed.

Test Scores

- IIE requires official test scores to be sent from the testing institution. An ‘examinee’ copy may be used while awaiting “official” scores, but eventually, universities will need “official” test scores.
- When taking the test, please make sure to indicate IIE as a test recipient.
- For TOEFLs and all GREs, the code is 2326.
- For GMAT exams, the code is Institute of International Education
- For IELTS, provide IIE’s full postal address
- **Note:** TOEFL and IELTS scores are valid for two years. GRE and GMAT scores are valid for five years.
